

February 2010

TO WHOM IT MAY CONCERN

We have worked with Mike Rigby over a period of several years. We contacted Mike's firm seeking support to establish a service offering carbon neutral products. Mike supported us in this endeavour in the following ways: -

- Acting as liaison between Toshiba in the UK and Head Office in Japan in the acquisition of product data;
- Calculation of the carbon footprint of the manufacture of Toshiba products;
- Calculation of the carbon footprint of the use of Toshiba products;
- Assembly and sourcing of a portfolio of high quality carbon credits;
- Assistance with the preparation of marketing materials to support Toshiba's carbon neutral products promotion;
-

We have no hesitation in recommending the carbon management services of Mike Rigby, CEO of Copenhagen Carbon Management, and are very pleased with the work that Mr Rigby has done for us. We found Mr Rigby to be a knowledgeable and authoritative carbon management advisor and found him very easy to work with.

We are also pleased that the pioneering work that we have undertaken with Mr Rigby is now being rolled out into other parts of Toshiba's worldwide operations.

Steve Hewson
Marketing Director
Toshiba TEC UK Imaging Systems Ltd.
